MIMETIC series

design Cátia Sul

Por favor não siga as instruções Please don't follow the instructions

«Quis abandonar o conceito da relação actual entre o objecto (imóvel, frio, distante) e o mero utilizador (passivo, indiferente), propondo uma nova existência entre dois sujeitos. Cria espaços de ambientes mais interactivos e afectivos. Nos dias de hoje os produtos devem ser versáteis acompanhando deste modo a orientação nómada e informal que desenha os nossos dias. Penso que o processo criativo não deve estar apenas nas mãos do designer, o utilizador também deve participar. Os objectos devem permitir novas interpretações e flexibilidades.»

MIMETICseries

design Cátia Sul

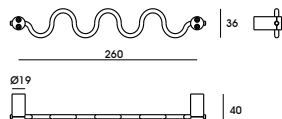

« I wanted to abandon the concept of the current relations between the object (immovable, cold, distant) and the mere user (passive, indifferent), considering a new relationship between them, creating friendlier environment spaces.

Nowadays products must be versatile following, the nomad and informal orientation that designs our days.

I think that the creative process shouldn't be only in the hands of the designer, the user must also participate and the objects must allow new interpretations and flexibilitie.»

FELL SIMPLESseries

design Ana Azevedo

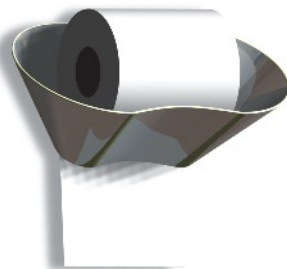

«A ideia essencial destes acessórios foi o quebrar aquela noção generalizada de que tais peças deverão ter sempre um papel secundário e por isso devem passar o mais despercebidas possível.

Desta maneira foi necessário promover uma forma com um maior impacto visual, para sobressair por si e também por não ser tão usual, podendo mobilizar assim as atenções tal como qualquer outra peça que se possa ter de design.»

«The essential idea of these accessories was to break the generalized notion that such parts must always have a secondary role and therefore must be the most invisible possible. In this way it was necessary to promote a form with a bigger visual impact, which could distinguish itself and be unusual enough to capture the attentions such as any another designed object.»
